At OctaWeb, we are committed to providing our customers with the best possible value. As part of this commitment, we offer a Price Match Guarantee to ensure you get the most competitive rates.

Please review the following terms and conditions to understand how our Price Match Guarantee works:

- The competitor you wish to price match must be a reputable and established hosting provider, recognized within the industry for delivering quality services.
- The hosting plan offered by the competitor must have similar specifications to the OctaWeb plan you are considering. This includes, but is not limited to, factors such as disk space, bandwidth, RAM, CPU, and other relevant technical specifications.
- To initiate the price match process, you must provide OctaWeb with clear and verifiable details of the competitor's hosting plan, including a link to the plan's official webpage.
- OctaWeb reserves the right to independently verify the provided information to ensure accuracy.
- The competitor's pricing must be regular and not part of a limited-time promotion, discount, or coupon. OctaWeb aims to match ongoing, standard rates.
- OctaWeb will consider price matching for hosting plans billed in the same currency and with similar billing terms (monthly, annually, etc.).
- OctaWeb reserves the right to make the final decision on whether a price match is applicable. Our decision will be communicated promptly after the verification process.
- The OctaWeb Price Match Guarantee is applicable to hosting plans only and does not cover additional services, add-ons, or third-party products.
- OctaWeb reserves the right to exclude certain promotions, special offers, or specific plans from the Price Match Guarantee at our discretion.
